

Ruiying (Rain) Liu

AI Product Manager · Product Strategist · UX Designer

🌐 rain-liu.com ✉ rainliu0309@gmail.com 📞 548-881-3309 📍 Open to Relocation

AI Product Manager with a background in project management, business operations, and UX design. Experienced in building 0-to-1 AI products across RAG, agentic workflows, generative AI, and AI evaluation, translating user and business needs into product strategy while balancing user experience, technical feasibility, and business goals.

EDUCATION

University of Toronto

Master of Information · User Experience Design
GPA 3.9 / 4.0

Sep 2024 – Jun 2026
Toronto, Canada

University of Western Ontario

Bachelor of Arts · Media, Information & Technoculture
GPA 3.9 / 4.0

Sep 2020 – Jun 2024
London, Canada

WORK EXPERIENCE

Shenzhen Balogzon Import and Export Trade

Operations Manager

- Managed PopBabies operations across Canada and the U.S., covering fulfillment, inventory, customer support, sales data, and multi-channel marketing
- Built and improved an internal operations system for team hours, budgets, inventory, and sales workflows, improving visibility and coordination
- Planned Instagram and TikTok campaigns and optimized strategy using sales data, contributing to 2,000+ units sold in Canada and 1,000+ in the U.S.

Sep 2023 – Dec 2024
London, Canada

Yunnan Woruo Culture Communication

Project Manager

- Led mobile and digital product projects from requirements and planning through development and delivery
- Coordinated clients, design, engineering, and marketing teams, balancing user needs, technical feasibility, and business priorities to keep delivery on track

Sep 2019 – Aug 2020
Kunming, China

Interactive Media Designer

- Designed web interfaces and UX alongside visual, motion, video, and other multimedia content
- Worked across requirements, information architecture, UI design, and delivery with creative and marketing teams

Sep 2016 – Aug 2019
Kunming, China

PROJECT EXPERIENCE

CrossScribe AI

RAG-powered vertical AI marketing-copy tool

- Conducted market and competitive research in cross-border e-commerce to identify a RAG + private knowledge base opportunity, then defined priorities and an MVP-to-SaaS roadmap
- Designed knowledge-base management, source-grounded retrieval, multilingual generation, and brand-tone controls for reliable AI-assisted content creation

May 2026 – Aug 2026
Toronto, Canada

TeamAlign AI 🔗 Agent-native web AI collaboration tool - Defined product strategy and designed a 0-to-1 agentic workflow that turns meeting content into tasks, owners, priorities, and risk signals - Unified project tracking, risk management, and reporting in one workspace while preserving human decision authority	May 2026 – Aug 2026 Toronto, Canada
FateFork AI 🔗 Narrative-driven AIGC self-reflection tool - Designed a multi-path self-reflection experience combining rule-based constraints with generative AI to produce neutral, structured narratives - Conducted 8 moderated end-to-end user tests and iterated key interactions based on comprehension, effort, and user autonomy	May 2026 – Aug 2026 Toronto, Canada
FairBench AI 🔗 ToG-oriented AI auditing tool - Designed a facial-recognition fairness auditing workflow spanning test data, model evaluation, fairness metrics, and audit reporting - Connected metric-based risk signals with human review and decision records to keep evaluations traceable and reviewable	May 2026 – Aug 2026 Toronto, Canada
